HUT IN THE CITY

If extending your home onto the rooftop appeals, Shoreditch practice **Hût Architecture** has created this timber 'urban haven and kitchen/diner' in Clerkenwell, London, for designer Morag Myerscough. Inspired by sheds and treehouses, it features a sliding glass roof and sliding door to a herb garden. Solar panels and a wood-burning stove add to the eco chic vibe. *Hût Architecture* (020 7729 3699; info@hutarchitecture.com).
